

DoReMimis

Here's what I am looking for:

Art:

- Art director
- Mocap Engineers
- UE Environments
- 3D Modelers
- 3D Animators
- MetaHuman Creators
- Concept Artists

Unreal Engine:

- Gameplay Engineers
- Networking Engineer
 - Replication
 - Multiplayer
- UI Engineer
- General SWE
- Mobile App Dev

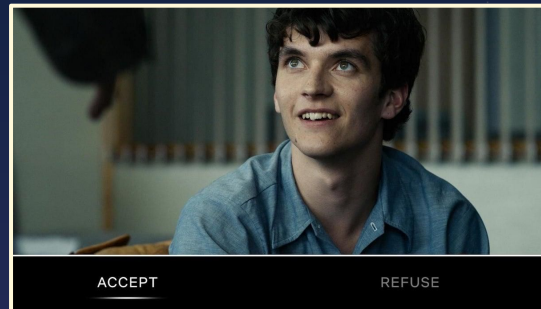

Film/Other:

- Director of Photography
- Assistant Director for mocap shoots
- Music/Sfx
- Mocap Actors
- Voice Overs
- Marketing

Game Design:

- Level Layout Designers
- Game Designer

DoReMimi is an interactive experience that blurs the line between film and video games.

Dispatch

Ride for
Your Life

Fortnite Events

What is it?

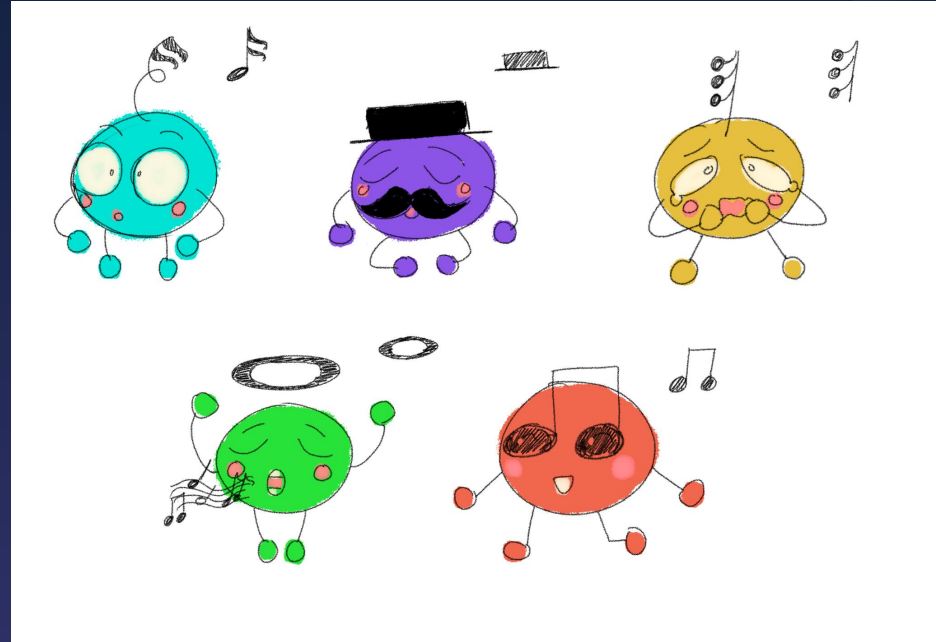

Players will watch a movie and control a playable side character in real time on their phones. There will be collaborative minigame moments that branch the narrative based off of the win / lose condition.

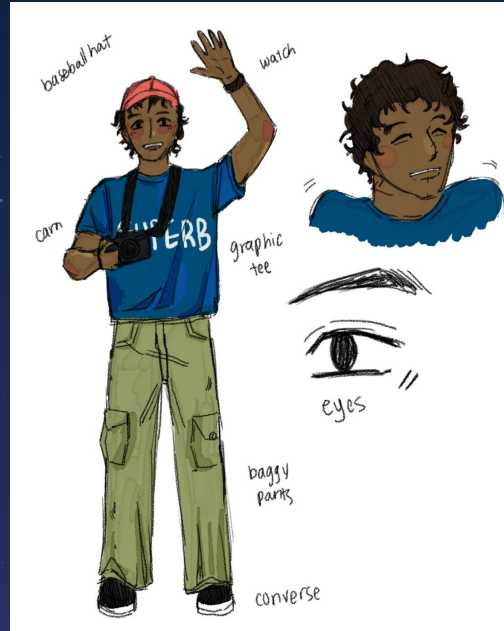

Que es un Mimi

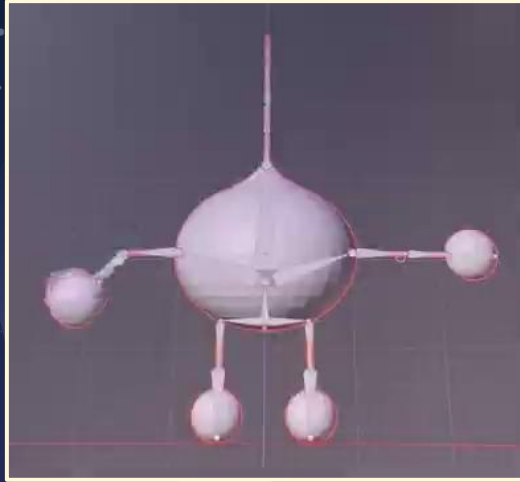

Players will play as **Mimis**, music notes that came to life to assist Santi through his creative blockers.

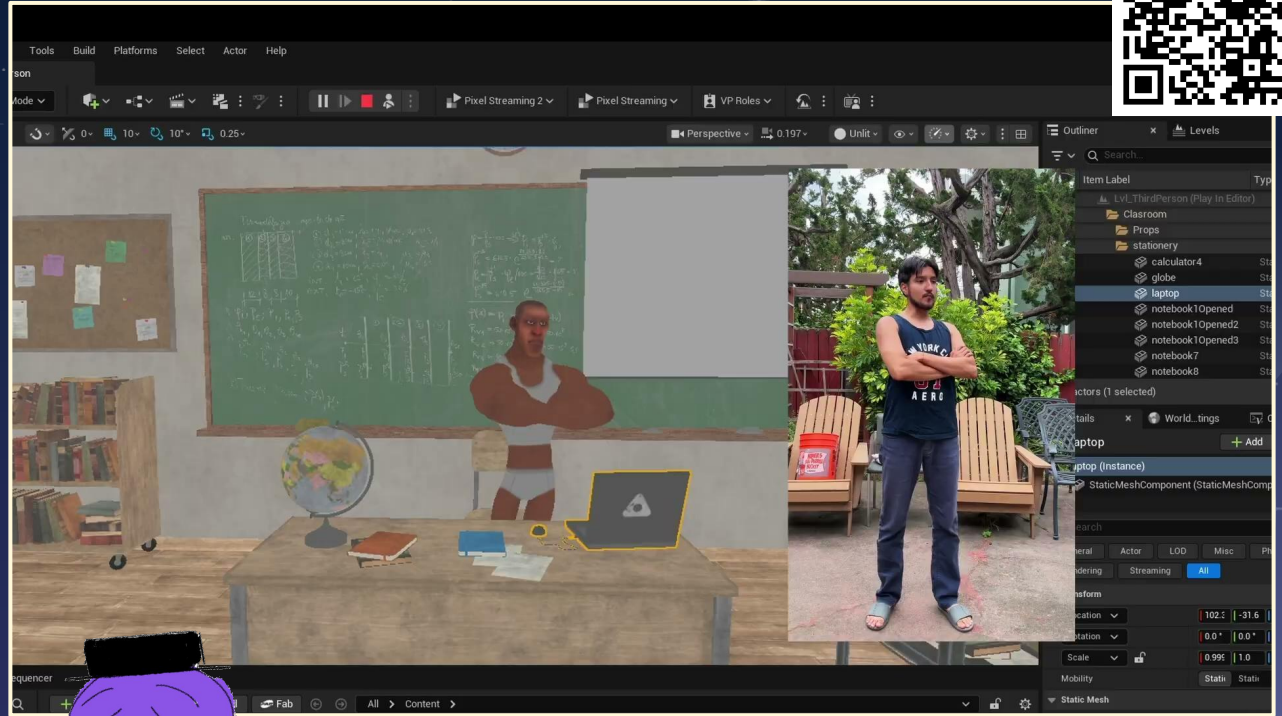

Meet Santi

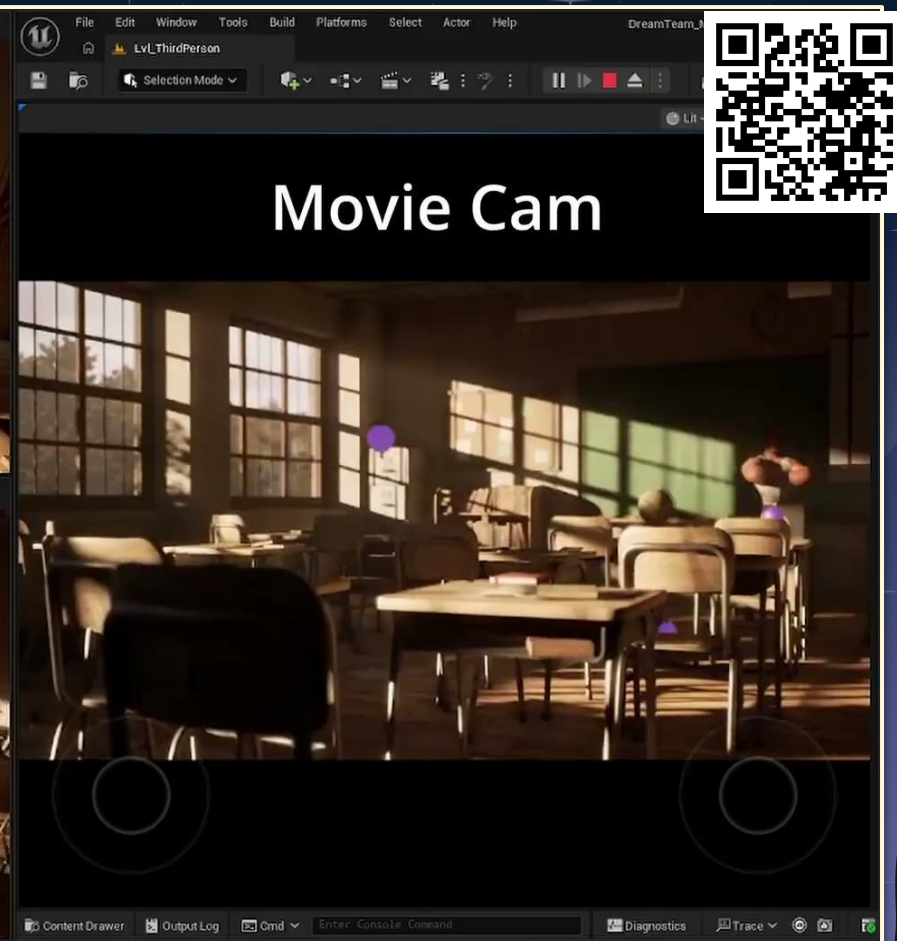

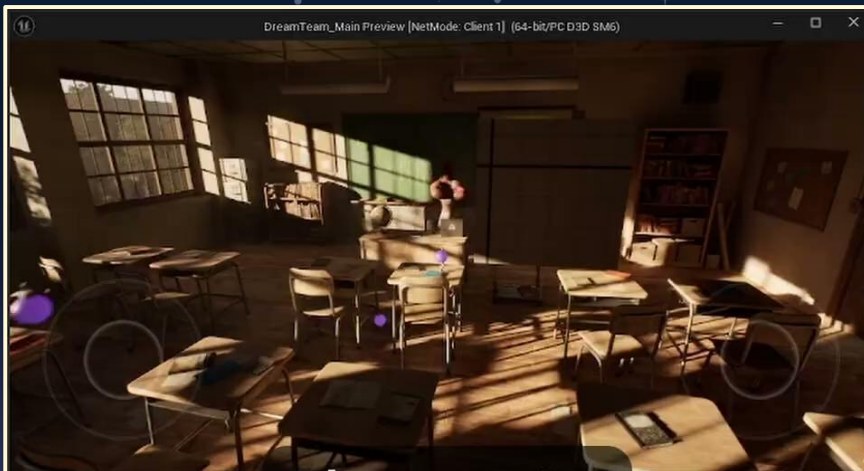

An undocumented 17 year old Mexican living in California trying to navigate the college application system as a DACA recipient, while balancing his creative career and his Dad's business inheritance.

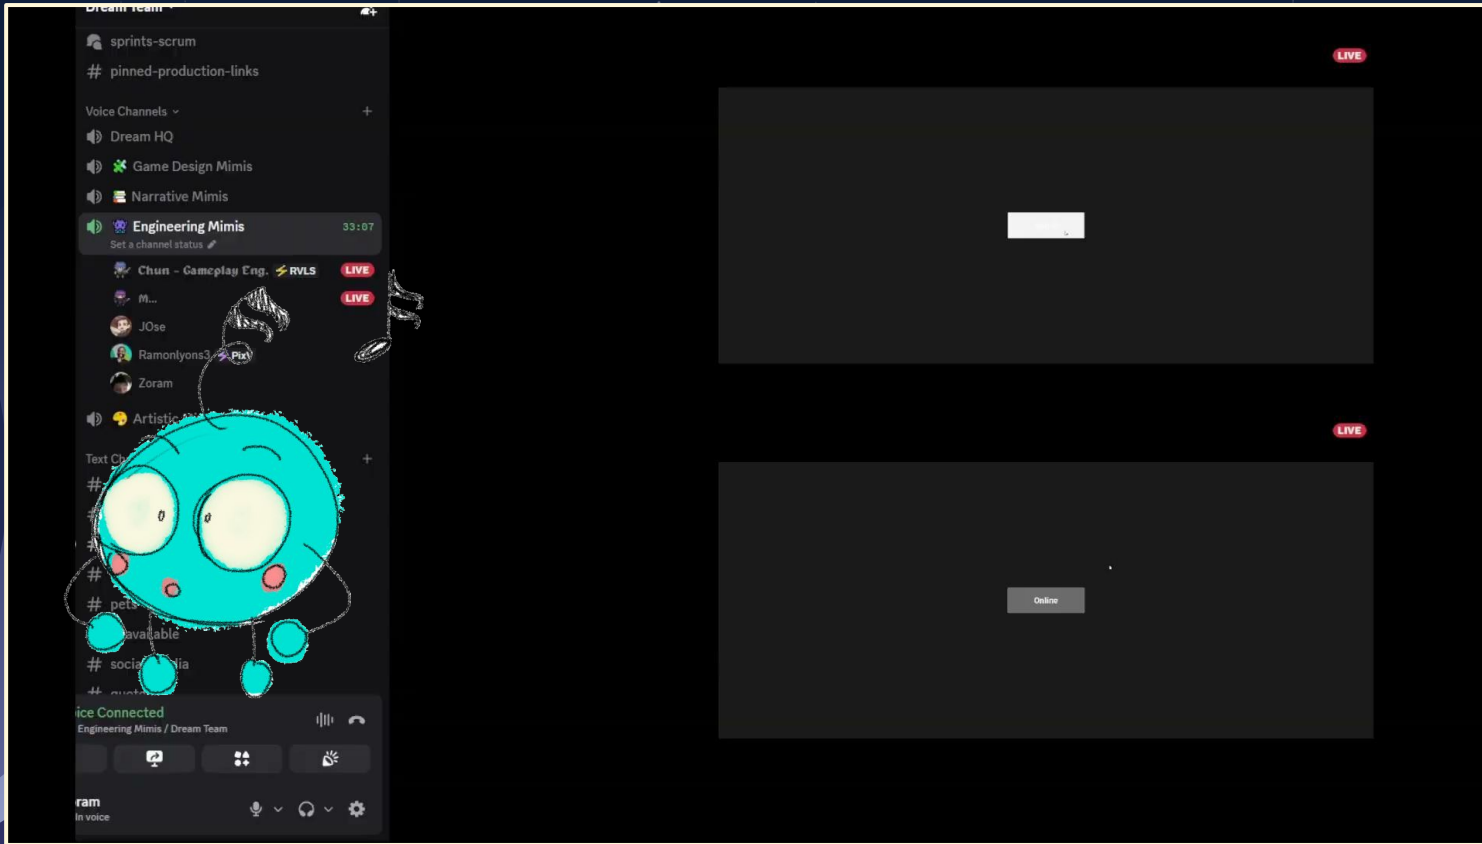

Custom 3d
Models/Animations
for mimis

Mocap and metahuman workflows
for human characters

LAN Multiplayer - Replication Functioning

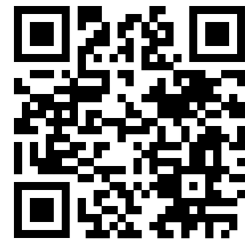

Design Pillars
for interactive
cutscenes

Modes of
Transportation

Storytelling

Customization

Design Pillars

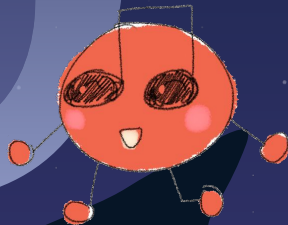

Minigames that branch narrative

Collaborative
Gameplay that
branches the narrative

Dual Screening

3D Seamless
transitions
Movie ➤ game ➤ movie

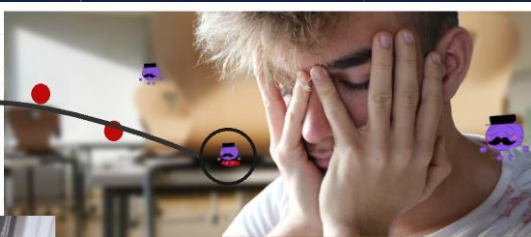

1. Rhythm Mini Game:

All mimis have to creatively inspire Santi by creating music out of non-musical instruments.

2. Bad Mimi Mini Game:

Jump on Dark/Red
Mimis to defend
Santi

Levels based on
movie environment

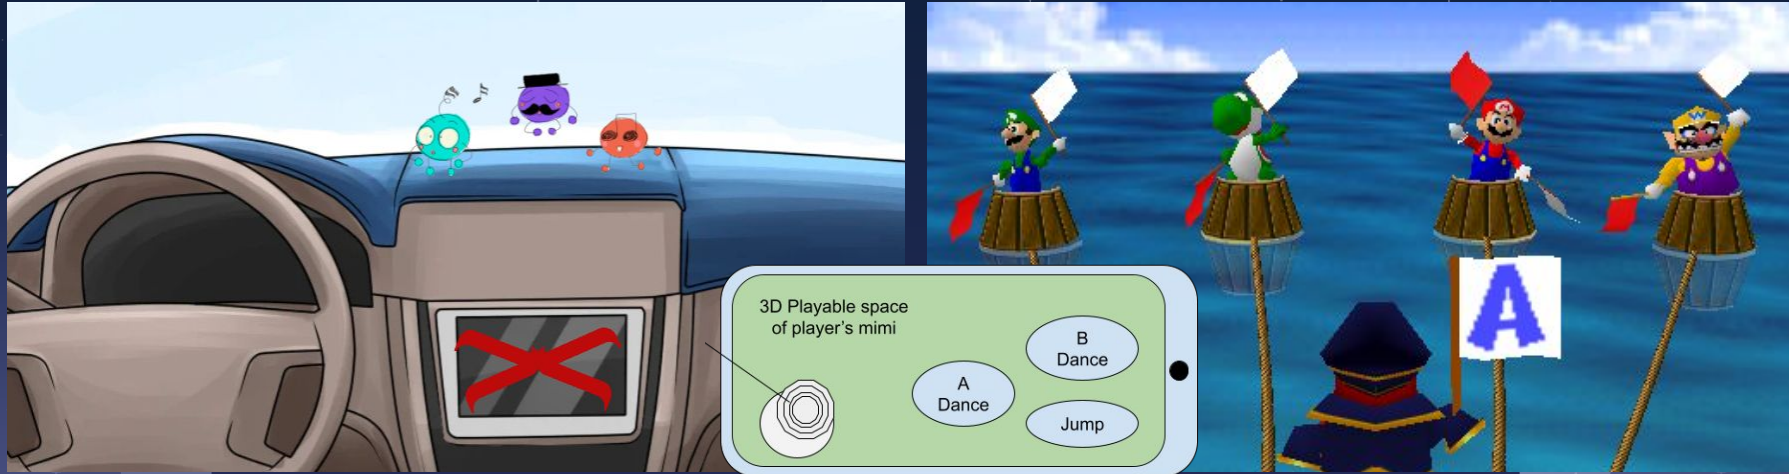

Mimis have to
defend Santiago
from his anxiety
manifestations.

JOYCON

3D Playable space of player's
mimi

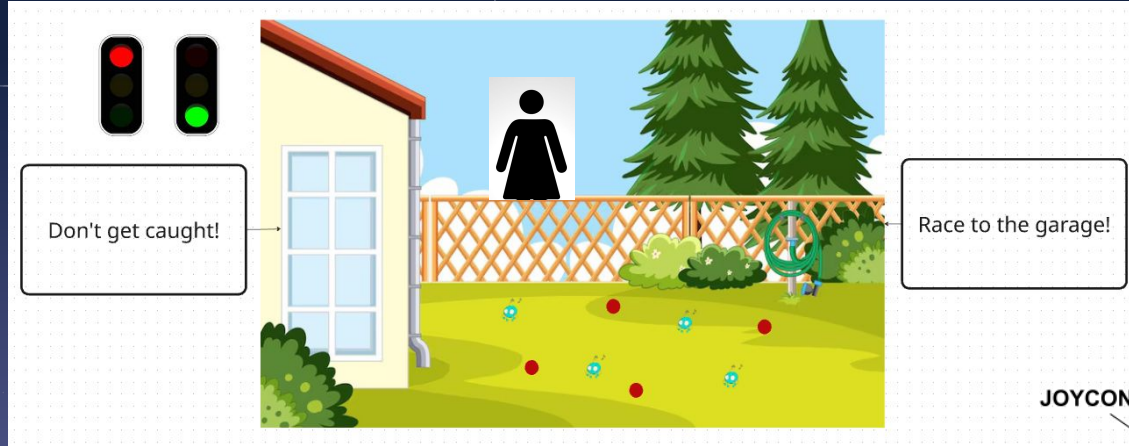

Jump

3. Simon Says Dance Mini Game:

The radio is “Simon Says” as it swapps between two stations.

4. Red Light Green Light + Bad Mimi Mini Game:

All Mimis have to help Santi sneak into the garage while fighting off bad mimis and avoid getting caught by the homeowner!

Engineering question

How do i connect a phone to the host?

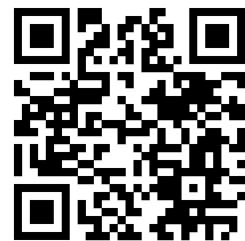

Web Browser input?

- Streaming a camera angle + controllable character is hard
- Huge processing power from host
- Host calculates replication + streaming camera angle

Build a mobile app?

- Android vs ios
- Processing is distributed per handheld device
- Host calculates replication

¡ Gracias!

Art:

Risks

Art

- Hella Animation
 - Watchable Characters
 - Playable Characters
 - Interactable objects
 - particle effects

Risks

Gameplay

- A lot of optional fidget type gameplay
- Designing for massive multiplayer

Risks

Narrative

- Need more world building
- Implementing serious narrative with a whimsical world

Risks

- + Engineering

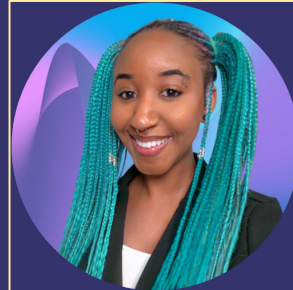

- Huge networking challenge
- A lot of small engineering gameplay

Kaylee | CS MS
