

Soft Things HARD

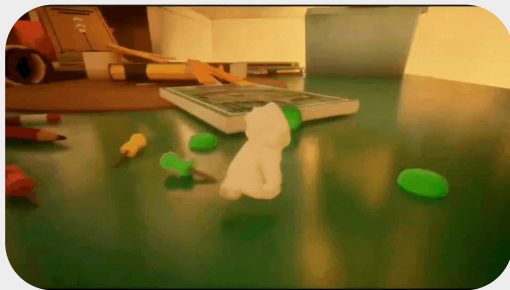

Essence

“Soft Things Hit Hard” is an online **Third-Person Party Battle Royale**, where squishy play doh creatures enter the arena to:

Scavenge junk

Stick on protection

Assemble weapons

In this chaotic destruction, **silly creativity** will become the greatest asset to fight to the last blob standing.

Narrative

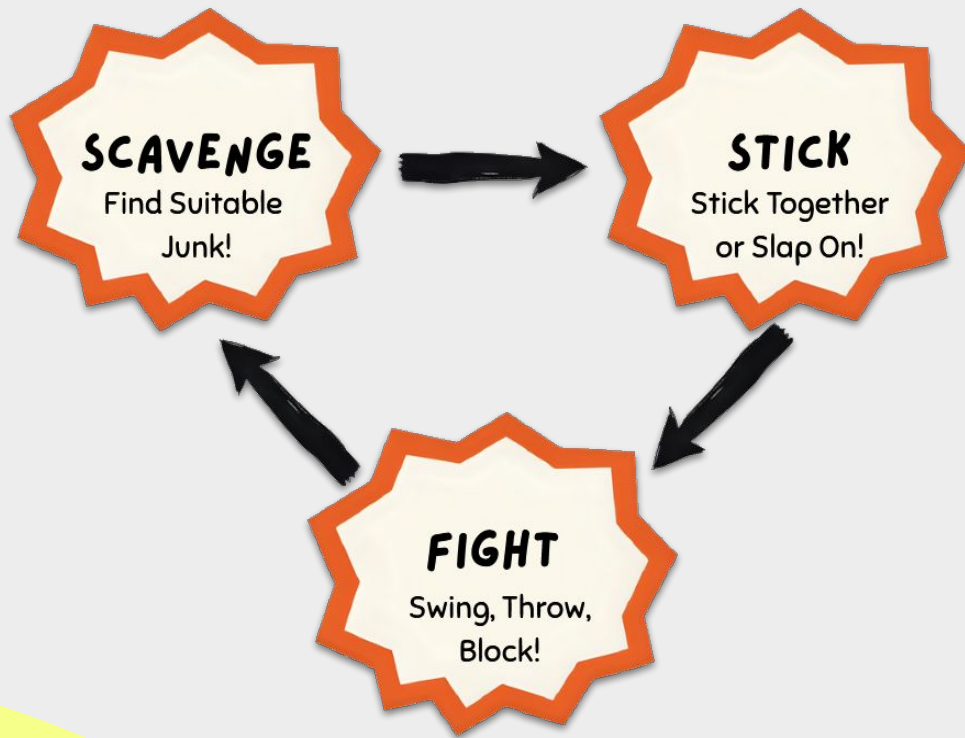

Human offspring enjoy shaping playdough for fun. The creations understand one rule: only the cutest will be kept, the rest will be kneaded back into **nameless mud**.

There can only be one **favorite**. And I'm going to make sure you look like **trash**. Stay cute, or get squished.
